DALLAS, TX
14 March 2011

The NUNCHUK™ Precision Shaft continued its hot start on the 2011 PGA Tour with this week's Top-3 finish at the World Golf Classic – Cadillac Championship. The T3 finish at Doral added to the NUNCHUK's™ thrilling win at the Bob Hope Classic, T3 finish at the Farmers Insurance Open, and Top-5 finish at the Waste Management Phoenix Open.

Two NUNCHUK™ shafts were in the bag for one of the players who finished tied for 3rd place at the Cadillac Championship. He finished with a strong, bogey-free round, finishing only three shots behind the winner and tied for 2nd in birdies for the tournament.

“In its first year on the PGA Tour, the NUNCHUK™ shaft continues to place at or near the top of the leaderboard on a regular basis,” said Mike McCall, nVentix® Golf CEO. “We have seen increasing usage on the PGA Tour, the Champions Tour and the Nationwide Tour as more professional golfers experience the consistency of the NUNCHUK™.”

The revolutionary technology in the NUNCHUK™ produces a single flex design for drivers, fairway woods and hybrids that can be used by professionals and amateurs, men and women, juniors and seniors. “When you've got a NUNCHUK™ in your bag, you're playing exactly what the pros play,” McCall added.

The Nunchuk's™ unique Tri-Zonal Stability™ technology enables golfers all abilities to more consistently deliver LONG & ACCURATE driver, fairway wood and hybrid shots. Golfers of all ages and swing speeds who play the Nunchuk™ will see their shot dispersion narrow AND their spin rate reduced – thus increasing both accuracy and distance.
