DALLAS, TX

25 October 2011

The NUNCHUK® Precision Shaft wrapped up its inaugural season on the professional golf circuit with impressive results. On the PGA Tour, NUNCHUK® shafts were in the winner's bags at both the Bob Hope Classic and The Heritage. Additionally, the winner of the Champions Tour Nature Valley First Tee Open at Pebble Beach was using a NUNCHUK® Precision Shaft. In all, 30 PGA Tour players put a NUNCHUK® in play during 2011.

The NUNCHUK's® wins were key parts of a strong 2011 season from start to finish. Overall, NUNCHUKs® scored 12 Top 5 finishes on the PGA Tour, including T3 finishes in two of the four FedExCup Playoffs events, and four Top 5 finishes on the Champions Tour. In 2011, NUNCHUK® shafts also finished in the Top 15 at both the Masters Tournament and the U.S. Open.

"In the 25-plus years I've been involved with the PGA Tour, I've never seen a newly introduced golf shaft so quickly establish itself as a winner," said Arnie Cunningham, the NUNCHUK® PGA Tour rep. "We started with one player on the PGA Tour using the NUNCHUK® in January. Over the course of the year, 30 players had the confidence to put a NUNCHUK® in their bag with money on the line. As this year's Tour season finishes up with a swing through Asia, I'm looking forward to continuing to grow NUNCHUK's® PGA Tour presence in 2012."

"Because it contributed to so many strong finishes on the PGA Tour and the Champions Tour, many are referring to the NUNCHUK® as 'The Hottest New Shaft on the PGA Tour'," said Mike McCall, CEO of nVentix® Golf. "At nVentix, we are equally proud that the NUNCHUK's® patent-pending design has been helping golfers of all abilities around the world bring a new level of consistency and fun back to their golf game." The revolutionary technology in the NUNCHUK's® design allows the exact same shaft to be used by professionals

and amateurs, men and women, juniors and seniors in their drivers, fairway woods and hybrids. “When you’ve got a NUNCHUK® in your bag, you’re playing what the pros play,” McCall added.

The NUNCHUK’s® unique Tri-Zonal Stability™ technology enables golfers of all abilities to more consistently deliver LONG & ACCURATE driver, fairway wood and hybrid shots. Golfers of all ages and swing speeds who play the NUNCHUK® will see their shot dispersion narrow AND their spin rate reduced – thus increasing both accuracy and distance.

Those who are interested in test-driving a NUNCHUK® can visit the official website at www.nventix.com to find a list of the over 100 dealers and PGA professionals across the US, Canada, Australia and Europe that offer the NUNCHUK®.
