DALLAS, TX

13 February 2012

The NUNCHUK® Precision Shaft continued its hot start to the 2012 PGA Tour season with third place and T9 finishes in the AT&T National Pro-Am at Pebble Beach. The Top 10 finishes at Pebble Beach follow a come-from-behind victory in the Farmers Insurance Open and a third place finish in the Waste Management Phoenix Open.

The NUNCHUK® shaft continues to build upon its impressive 2011 PGA Tour success by delivering results at or near the top of the leaderboard on a consistent basis. With the two Top 10 finishes at Pebble Beach, the NUNCHUK® shaft has now been a part of five Top 10 finishes on the 2012 PGA Tour through the first six tournaments. In those six tournaments, golfers using NUNCHUK® shafts have earned over \$2.5 million in winnings. Since its introduction in 2011, the NUNCHUK® Precision Shaft has been a part of 22 Top 10 finishes on the PGA Tour and six Top 10 finishes on the Champions Tour.

“PGA Tour golfers demand consistency from their equipment. Having the NUNCHUK® shaft in the bag of Top 3 finishers on three consecutive weekends demonstrates the confidence that some of the world’s top golfers have in the NUNCHUK® shaft,” said Arnie Cunningham, NUNCHUK® PGA Tour representative.

-more-

“The NUNCHUK’s® phenomenal start on the 2012 PGA Tour validates that its groundbreaking design can meet the demanding expectations of professional golfers,” said Bryan Nicholson, PGA, Chairman of nVentix’s® Golf Advisory Board. “While the NUNCHUK® continues to perform for PGA Tour golfers, the stability and consistency of the NUNCHUK® has also been helping golfers at all levels bring the fun back to their golf game.”

The revolutionary technology in the NUNCHUK’s® patent-pending design allows the exact same shaft to be used by professionals and amateurs, men and women, juniors and seniors in their drivers, fairway woods and hybrids. “When you’ve got a NUNCHUK® in your bag, you’re playing EXACTLY what the pros play,” added Mike McCall, nVentix® Golf CEO.

The unique Tri-Zonal Stability™ technology in the NUNCHUK® and now in the recently released NUNCHUK® 370 Precision Hybrid Shaft enables golfers of all abilities to more consistently deliver LONG & ACCURATE driver, fairway wood and hybrid shots. Golfers of all ages and swing speeds who play the NUNCHUK® and NUNCHUK 370 will see their shot dispersion narrow AND their spin rate reduced – thus increasing both accuracy and distance.
