DALLAS, TX
22 August 2011

The NUNCHUK® Precision Shaft powered impressive finishes this weekend at the Wyndham Championship on the PGA Tour and the Constellation Energy Senior Players Championship on the Champions Tour. With solid performances on the 2011 PGA Tour, six players with NUNCHUK's® currently in their bags qualified for the PGA Tour's FedEx Cup playoffs.

The third place finisher at the Wyndham Championship had a NUNCHUK® in his bag on the way to his fourth Top 5 finish on the 2011 PGA Tour. He finished with a 14-under 266 (63-65-69-69), with his first round score tying for the low round of the tournament. A NUNCHUK® was also in the bag of one of the players that scored 11-under par to finish T12.

The NUNCHUK® Precision Shaft delivered another Top 10 finish on the Champions Tour at the Constellation Energy Senior Players Championship. The NUNCHUK® shaft helped follow up on the come-from-behind win at the Nature Valley First Tee Open with a T6 finish at the Constellation Energy Senior Players Championship – moving him up three spots to 10th Place on the Charles Schwab Cup Championship Points list.

Six players currently using the NUNCHUK® Precision Shaft have qualified for the PGA Tour's FedEx Cup Playoffs. "Qualifying for FedEx Cup requires consistent performance over the entire season," said Arnie Cunningham, the NUNCHUK® PGA Tour rep. Cunningham continued, "The NUNCHUK® shaft's versatility and consistency makes it a valuable tool for many of the world's most accomplished golfers. We're looking forward to having more professionals play and win with the NUNCHUK® as the 2011 PGA Tour season continues."

"Last weekend's strong finishes underscore the NUNCHUK's® reputation as the hottest new shaft on the PGA Tour," said Mike McCall, nVentix® Golf CEO. "Six FedEx Cup playoff qualifiers is exciting, but it's important to remember that the NUNCHUK's® patent-pending design is also helping golfers of all abilities around the world bring a new level of consistency and fun back to their golf

game.” The revolutionary technology in the NUNCHUK’s® design allows the exact same shaft to be used by professionals and amateurs, men and women, juniors and seniors in their drivers, fairway woods and hybrids. “When you’ve got a NUNCHUK® in your bag, you’re playing what the pros play,” McCall added.

The NUNCHUK’s® unique Tri-Zonal Stability™ technology enables golfers of all abilities to more consistently deliver LONG & ACCURATE driver, fairway wood and hybrid shots. Golfers of all ages and swing speeds who play the NUNCHUK® will see their shot dispersion narrow AND their spin rate reduced – thus increasing both accuracy and distance.

Facebook Status

Nunchuk shafts by @nVentix recorded a third- and T12-place finish at Wyndham Championship; six current Nunchuk players qualify for FedEx Cup Playoffs. Nunchuks also notched a six-place finish at the Constellation Energy Senior Players Championship.
